

Email sent to all corresponding and presenting authors, May 24, 2021

To: Presenting Authors - Accepted  
Subject: Networks 2021: Schedule posted & registration deadline approaches

Hello!

You are receiving this because you are the currently listed \*presenting\* speaker for an accepted talk or poster at Networks 2021:

ID [:paperid:]: [:title:]

Announcements!

- 1) We have posted the session and talk slot assignment at: <http://bit.ly/H8jfhglwuvn>
- 2) If you have any final changes to make to your talk title, author listing, or abstract, you may do so now at <https://www.openconf.org/networks2021/author/edit.php> through Tuesday, June 1. After that point you can make changes in the Whova conference platform system. We are aiming to have Whova open between June 7-14 and as soon as it is, all registered participants will receive an invite to join.
- 3) Early bird registration closes June 1, which is also the deadline for presenting authors to register for the conference to hold their slot: <https://networks2021.net/registration>. We will be sending reminders to presenting authors who are not registered later this week.
- 4) Be on the lookout next week for details for how to prepare and upload materials (recordings, images, pdfs, links) for your talk or poster.

With just four weeks to go until the opening day of preconference, we are excited to see your work and see you virtually!

Thanks,  
Ann McCranie, General Organizer

PS. For some of you, this might be the first email you have seen from us in a while. We discovered our emails were being blacklisted at a few US universities that used the same private email filtering service that prevented emails with our conference name from reaching even your spam folder. We believe we have been whitelisted now, but in case you are just catching up, please check out <https://networks2021.net/correspondence> for details or reach out to [juni@iu.edu](mailto:juni@iu.edu) if you have questions or problems.
